

# KYLE BOEHLEN

## Software/DevOps Engineer

(801) 923-4514 / [kyleboehlen@gmail.com](mailto:kyleboehlen@gmail.com) / <https://www.kyleboehlen.com>

## Experience

### Porch Software, Remote — Fullstack Developer II

November 2024 - PRESENT

- ❖ Work with C#, .NET, and Vue to manage technical debt and implement documentation, testing, features, and bug fixes
- ❖ Lead developer on the flagship greenfield project with a 5 developer team

### JSSI Maintenance Software, Remote — Software Developer

January 2021 - February 2025

- ❖ Led the design and development of digital platform that scaled from 0 to millions of documents
- ❖ Converted manually administered infrastructure to IaC using AWS
- ❖ Unblocked a halted project and optimized asynchronous workflows for improved performance
- ❖ Collaborated heavily on a Laravel and Vue based tech stack

### Ken Garff Corporate, Utah — Software Developer

August 2018 - August 2021

- ❖ Designed and refactored PHP applications - developed internal WFM software solutions
- ❖ Integrated existing PBX and CRMs saving \$208k annually

August 2016 - August 2018

- ❖ Managed WFM and created custom reporting

## Education

### B.S. Software Engineering — Western Governors University

August 2026

### Certified Software Developer — Davis Technical College

August 2019

## Summary

Versatile software developer who knows how to pick the right tool for the job—whether that means a dead simple solution or a robust, scalable infrastructure. Tool agnostic in my approach to creating efficient, purposeful code that solves real problems without unnecessary complexity. Experienced in modernizing legacy systems, implementing critical features, and hunting the nastiest of bugs. Always strives to understand existing systems before making judgements, and a huge supporter of iterative refactoring and regression testing for continuous technical debt management.

## Certifications

- ❖ CompTIA A+
- ❖ CompTIA Network+
- ❖ LPI Linux Essentials

## Skills and Technologies

PHP	Laravel	C#	.NET	Python
HTML5	CSS3	Vue	JavaScript	GoLang
Typescript	MySQL	MariaDB	SQLite	
PostgreSQL	SQLServer	MongoDB		
Bootstrap	Tailwind	Git	Docker	AWS
Azure	GCP	Cloudflare	CI/CD	TDD
bash	Swagger	Scalar	Powershell	
CLI Development	Serverless Architecture
